Step 4: Click Print to Print Proximity Report	27
*Disclaimer	27

1.0 Search by Proximity

Step 1: Enter Address, Premise Name, Use Current Location or Drop Pin

Outputs: (Default set to 750 ft - Range 0 to 1,500 ft):

- Active, Pending and Inactive Liquor Licenses
- Places of Worship
- Public and Private Schools
- Counties
- Cities and Towns
- SLA Zones
- Police Precincts
- Community Boards

Step 2: Click Result Set or Map Icons to View More Detailed Information

Search By Proximity

Enter an address, city or place to view Liquor Lic Information

275 Central Ave, Albany, NY, 12206, USA

Show results within (Feet) 750

0 1500

Active Licenses

Approximate Distance: 407.62 ft

Active Licenses: VAN'S VIETNAMESE RESTAURANT INC | Retail

Premise Name: VAN'S VIETNAMESE RESTAURANT INC

DBA: VANS RESTAURANT

Category: Retail

Type: On Premise Wine

Description: RESTAURANT SERVING WINE CIDER AND BEER ONLY

Days / Hrs of Operation

Search by Ser#, Name, City, Zip, ...

Tasks Results

Step 3: View Search Results in the Attribute Table

Note: Attribute table contains all items displayed in map extent - not only buffered radius.

Search Active Licenses

DBA contains

City contains

Albany

ZIP is

12205

County is any of

0 selected

Lic Type is any of

0 selected

Result layer name

Active - City of Albany - Zip 12205

Apply

- License results will show with a circle on top of the map icon.
- All other licenses types within the map extent will be shown as well.
- Attribute table will show all licenses in map extent.

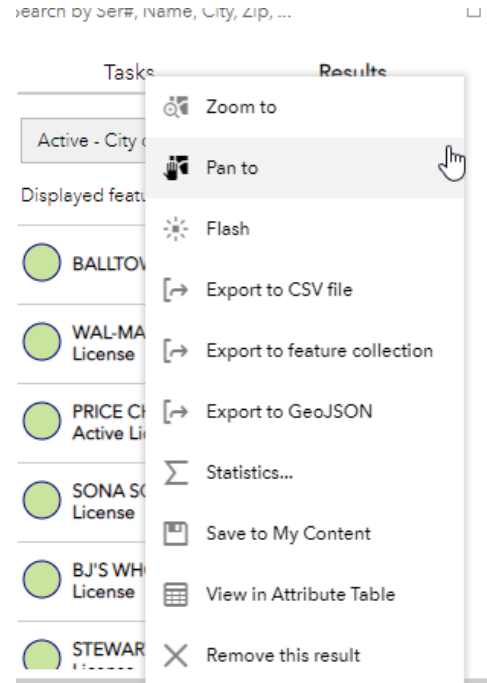

Step 3: Query Result is Displayed as a New Layer

- Turn on and off layers. Users have the ability to view query results only.

Step 4: Options to Interact with Query Result

- Click “Zoom to” and then click on a license to zoom to that license.
- Use “Pan to” to move the map.
- Use “Flash” for the circles to flash momentarily.
- Export to CSV, Feature Collection or GeoJSON.
- “Statistics” and “Save to my content” are not applicable. (These options will be removed in final version)

- View in Attribute Table. A new tab is added to the attribute table containing queried data only. Data can be exported.

4.0 Use Layer List

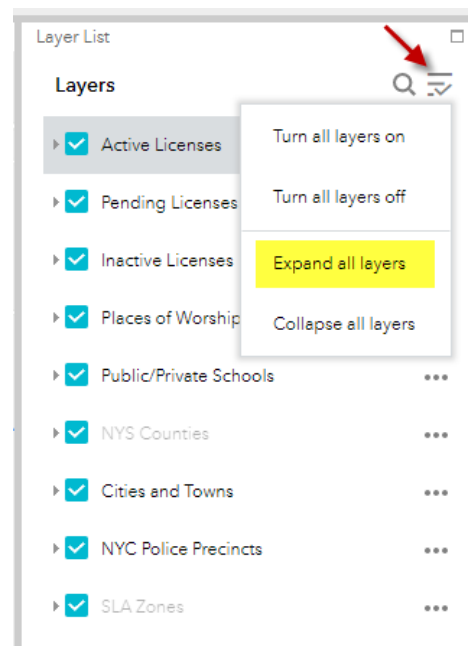

NOTE: Many layers will be dim when application loads and/or when map is showing the entire state. Layers become visible when zoomed in, preventing the map from showing all the data at the NYS zoom level which would be difficult to make sense of. The map automatically zooms in and turns layers on when using the Search, Query and Filtering tools.

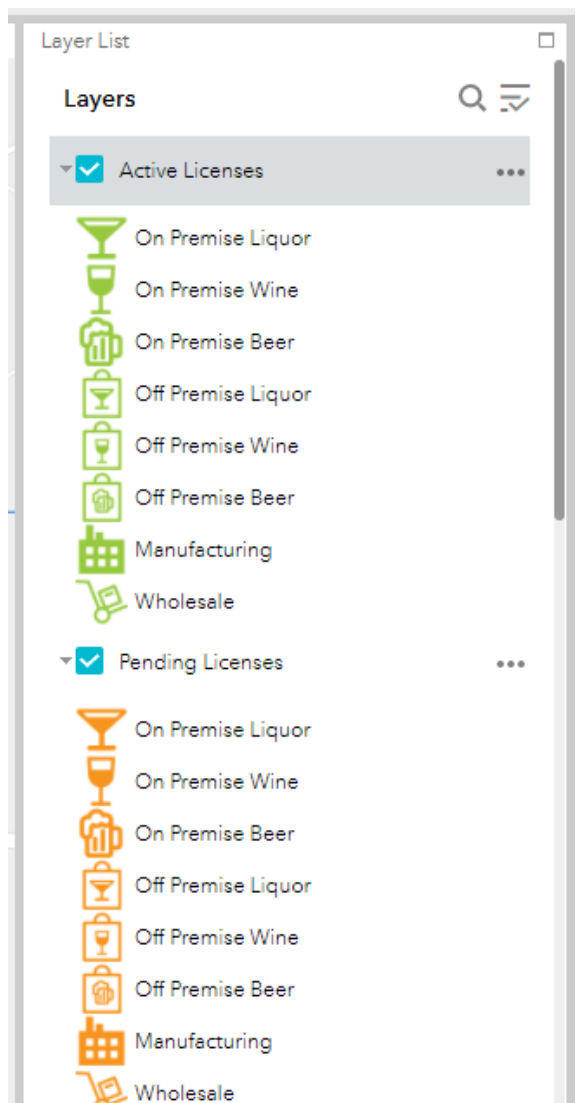

Step 1: Use Checkboxes to Turn Layers On and Off

Step 2: Click the Menu Icon to Expand All Layers

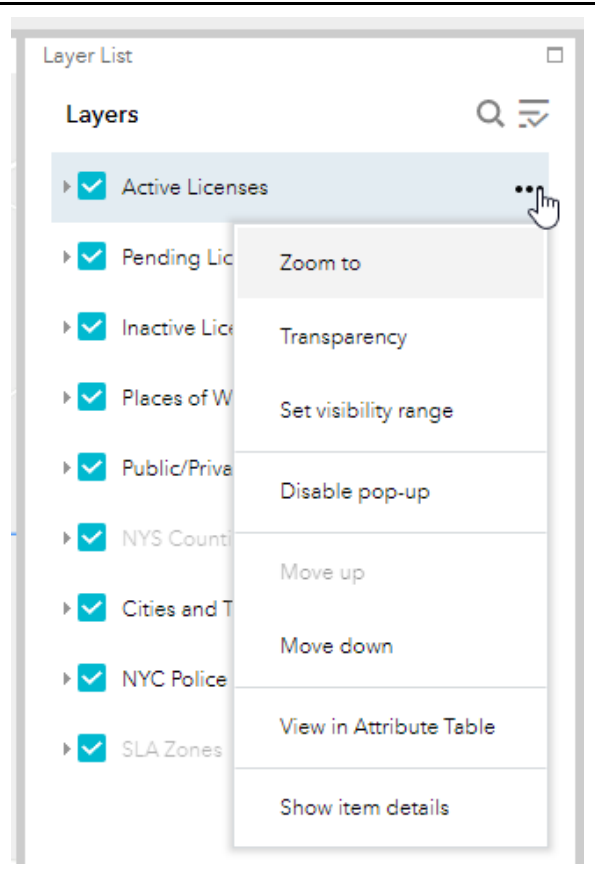

- Expanding layers shows the icons used for each layer.

Step 3: Click the Three Dots Next to Layer Name to Adjust Layer Options

- Zoom to - probably most helpful for police precincts and community boards located in NYC.
- Transparency - change the layer transparency.
- Set visibility range - adjust layer visibility range to show layers at different zoom levels.
- Disable pop-up.
- Move down - to rearrange layers
- View in Attribute Table - table view of a particular layer.
- Show item details - not applicable (must be signed into ArcGIS online).
Note: This option will be removed in the final version.

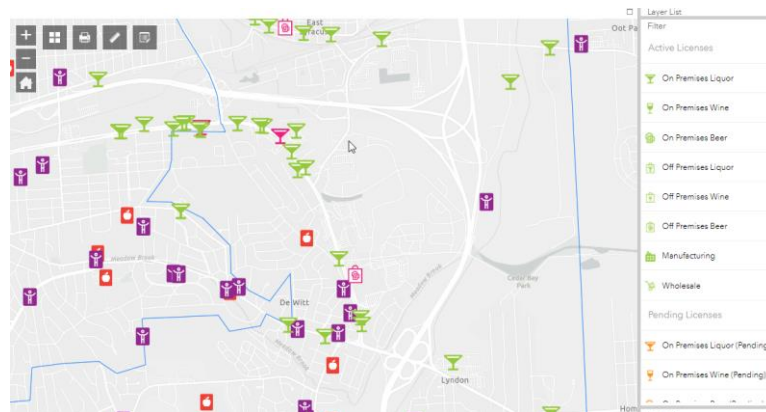

5.0 Use Filter Tool

Step 1: Turn Filters On and Off for Active and/or Pending Licenses by Clicking Toggle Button(s)

Active and Pending filters can be set for:

- On Premises Liquor
- On Premises Wine
- On Premises Beer
- Off Premises Liquor
- Off Premises Wine
- Off Premises Beer
- Manufacturing
- Wholesale

Note: When viewing the full NYS map, the filter tool will appear not to work. It is working, but nothing is displayed because the map must be zoomed in to see filtered data unless the visibility range was changed in the layer or if already zoomed in.

6.0 Rearrange Dashboard Items and View Legends

<p>Step 1: Click Dashboard Item Name and Drag to Create Tabs</p>		
---	---	--

7.0 Use Map Tools

<p>Step 1: Basic Map Navigation</p> <ul style="list-style-type: none"> • Use Home button to reset map to full NYS map. • Use + and - buttons to zoom map in and out. 	
---	---

Step 2: Change Base Map

- Click the Grid icon to select a different base map.

Tip: Using the Open Street map shows buildings and names when zoomed in.

Open Street Map

<p>Step 3: Print Maps</p> <ul style="list-style-type: none"> Click the Print button to print the map. 	
<p>Step 4: Choose Export Option</p>	

**Step 5: Click Advanced
to View Additional
Print Options**

<p>Step 6: Click Print to Create Print File(s)</p>	
---	--

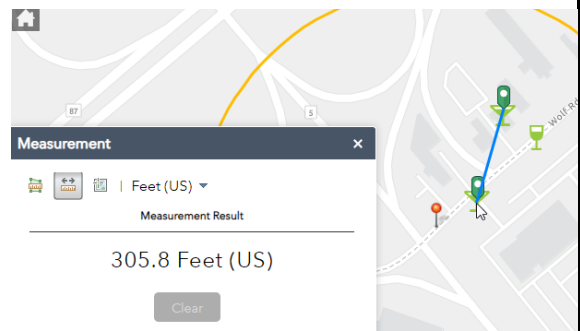

<p>Step 7: Click Measurement Tool to Measure Distance Between Locations</p>	
--	--

<p>Step 7: Select Measurement Option (Press CTRL to enable snapping)</p> <ul style="list-style-type: none"> • Measure Area • Measure Distance • Measure Location 	
--	--

<p>Step 7A: Measure Area</p> <ul style="list-style-type: none"> • Click the area measurement tool and choose the desired measurement type (feet, miles, etc.). • Click the area on the map to be measured. 	
---	--

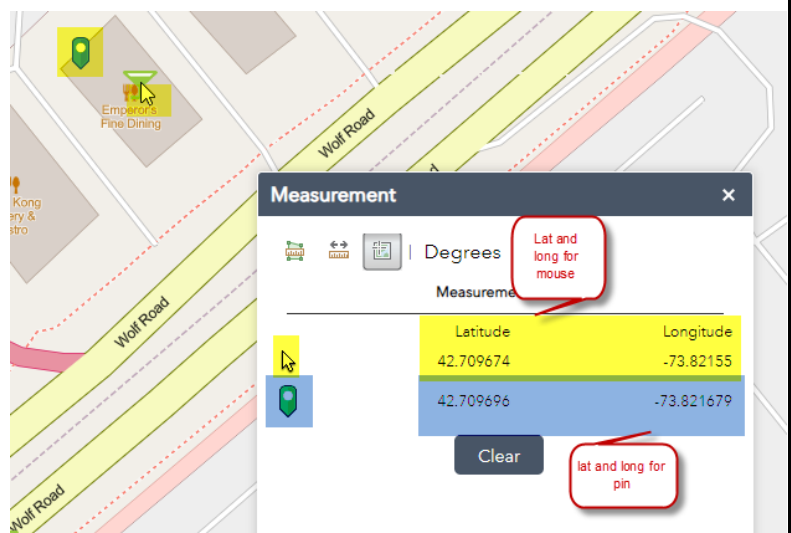

Step 7B: Measure Distance

- Click the distance measurement tool and choose the desired measurement type (feet, miles, etc.).
- Click the start and end point for distance to be measured.

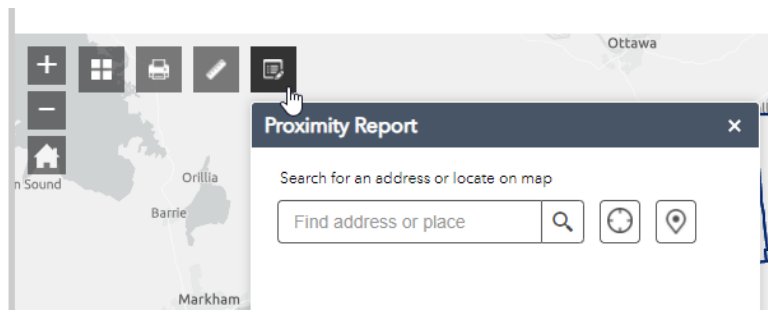

Step 7C: Measure Location

- Click the location measurement tool to get the latitude and longitude for a location. The measurement type is degrees.
- Moving the mouse on the map will provide latitude and longitude tracking for mouse movement. Click a point to get latitude and longitude for a particular point.

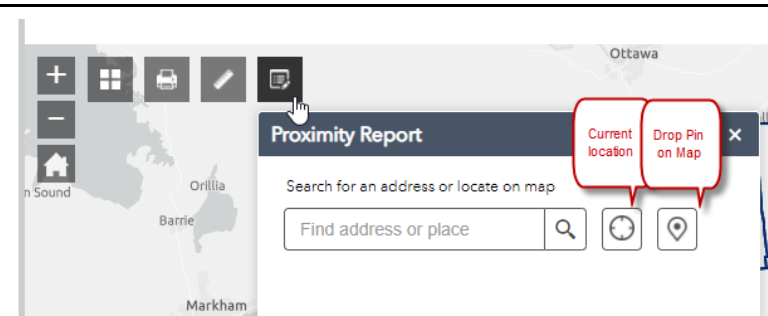

8.0 Create a Proximity Report

**Step 1: Click Proximity
Report Button**

**Step 2: Enter Premises
Name or Address in the
Search Box, or Use Current
Location or Drop a Pin on
Map for Basis of Proximity
Report**

**Step 3: A Proximity Report
will be Generated Based on
Location Entered**

Proximity Report contains:

- 8 closest liquor stores
- Schools within 500 ft
- Places of Worship within 500 ft
- Pending on Premises Liquor Licenses within 750 ft
- Active on Premises Liquor Licenses within 750 ft
