Liquor Authority Mapping Project
www.lamp.sla.ny.gov

Using the LAMP Application

Final Version: https://lamp.sla.ny.gov/

March 2021
TABLE OF CONTENTS

1.0 Search by Proximity ................................................. 4
   Step 1: Enter Address, Premises Name, Use Current Location or Drop Pin 4
   Step 2: Click Result Set or Map Icons to View More Detailed Information 5
   Step 3: View Search Results in the Attribute Table 5

2.0 Use Query Tool to Search Active, Pending and Inactive Licenses .......... 6
   Step 1: Select License Type to Search 6
   Step 2: Enter One or More of Following Criteria 7
   Step 3: Query Result is Displayed as a New Layer 8
   Step 4: Options to Interact with Query Result 9

3.0 Interact with Attribute Table .................................. 10
   Step 1: Default Table Shows All License in Map Extent 10
   Step 2: Click any Column Heading to Sort 11
   Step 3: Filter Data Using Robust Filtering Tool 11
   Step 4: Show/Hide Columns and Export Data to CSV 12
   Step 5: Select a Location and Zoom to that Location 13

4.0 Use Layer List ..................................................... 14
   Step 1: Use Checkboxes to Turn Layers On and Off 15
   Step 2: Click the Menu Icon to Expand All Layers 15
   Step 3: Click the Three Dots Next to Layer Name to Adjust Layer Options 17

5.0 Use Filter Tool ...................................................... 18
   Step 1: Turn Filters On and Off for Active and/or Pending Licenses by Clicking Toggle Button(s) 18

6.0 Rearrange Dashboard Items and View Legends .......................... 19
   Step 1: Click Dashboard Item Name and Drag to Create Tabs 19

7.0 Use Map Tools ...................................................... 19
   Step 1: Basic Map Navigation 19
   Step 2: Change Basemap 20
   Step 3: Print Maps 21
   Step 4: Choose Export Option 21
   Step 5: Click Advanced to View Additional Print Options 22
Using the LAMP Application

Step 6: Click Print to Create Print File(s)  
Step 7: Click Measurement Tool to Measure Distance Between Locations  
Step 7: Select Measurement Option (Press CTRL to enable snapping)  
Step 7A: Measure Area  
Step 7B: Measure Distance  
Step 7C: Measure Location

8.0 Create a Proximity Report

Step 1: Click Proximity Report Button  
Step 2: Enter Premises Name or Address in the Search Box, or Use Current Location or Drop a Pin on Map for Basis of Proximity Report  
Step 3: A Proximity Report will be Generated Based on Location Entered  
Error! Bookmark not defined.
Step 4: Click Print to Print Proximity Report  
*Disclaimer
1.0 Search by Proximity

Step 1: Enter Address, Premise Name, Use Current Location or Drop Pin

Outputs: (Default set to 750 ft - Range 0 to 1,500 ft):

- Active, Pending and Inactive Liquor Licenses
- Places of Worship
- Public and Private Schools
- Counties
- Cities and Towns
- SLA Zones
- Police Precincts
- Community Boards
Step 2: Click Result Set or Map Icons to View More Detailed Information

Step 3: View Search Results in the Attribute Table

Note: Attribute table contains all items displayed in map extent - not only buffered radius.
2.0 Use Query Tool to Search Active, Pending and Inactive Licenses

**Step 1: Select License Type to Search**

- Active Licenses
- Pending Licenses
- Inactive Licenses
Step 2: Enter One or More of the Following Criteria

- Serial number
- Part or all of the premises name
- Part or all of the DBA
- City
- Zip
- One or more counties
- Specific license type: On Premises Beer, Wine or Liquor, Off Premises Beer, Wine or Liquor, Wholesale and or Manufacturing

- Name layer result
- Click “Apply”
License results will show with a circle on top of the map icon.
All other license types within the map extent will be shown as well.
Attribute table will show all licenses in map extent.

Step 3: Query Result is Displayed as a New Layer

Turn on and off layers. Users have the ability to view query results only.
Step 4: Options to Interact with Query Result

- Click “Zoom to” and then click on a license to zoom to that license.
- Use “Pan to” to move the map.
- Use “Flash” for the circles to flash momentarily.
- Export to CSV, Feature Collection or GeoJSON.
- “Statistics” and “Save to my content” are not applicable. (These options will be removed in final version)

● View in Attribute Table. A new tab is added to the attribute table containing queried data only. Data can be exported.
3.0 Interact with Attribute Table

**Step 1: Default Table Shows All License in Map Extent**

- Uncheck “Filter by map extent” to view all licenses

<td>131 7TH AVE S</td>
<td>NEW YORK</td>
<td></td>
</tr>
</tbody>
</table>

Step 3: Filter Data Using Robust Filtering Tool

Filter

+ Add expression + Add set

Display features in the layer that match the following expression

Category (String) contains Wholesale
**Step 4: Show/Hide Columns and Export Data to CSV**

<table>
<thead>
<tr>
<th>Active Licenses</th>
<th>Pending Licenses</th>
<th>Inactive Licenses</th>
</tr>
</thead>
<tbody>
<tr>
<td>Show/Hide columns</td>
<td>Filter by map extent</td>
<td>Serial #</td>
</tr>
<tr>
<td>Show related records</td>
<td>#1 PHO INC</td>
<td>ZEN YAI</td>
</tr>
<tr>
<td>#1 PHO INC</td>
<td>ZEN YAI</td>
<td>1317403</td>
</tr>
</tbody>
</table>
Step 5: Select a Location and Zoom to that Location
4.0 Use Layer List

**NOTE:** Many layers will be dim when application loads and/or when map is showing the entire state. Layers become visible when zoomed in, preventing the map from showing all the data at the NYS zoom level which would be difficult to make sense of. The map automatically zooms in and turns layers on when using the Search, Query and Filtering tools.
Step 1: Use Checkboxes to Turn Layers On and Off

Step 2: Click the Menu Icon to Expand All Layers
- Expanding layers shows the icons used for each layer.
Step 3: Click the Three Dots Next to Layer Name to Adjust Layer Options

- Zoom to - probably most helpful for police precincts and community boards located in NYC.
- Transparency - change the layer transparency.
- Set visibility range - adjust layer visibility range to show layers at different zoom levels.
- Disable pop-up.
- Move down - to rearrange layers
- View in Attribute Table - table view of a particular layer.
- Show item details - not applicable (must be signed into ArcGIS online).

Note: This option will be removed in the final version.
## 5.0 Use Filter Tool

<table>
<thead>
<tr>
<th>Step 1: Turn Filters On and Off for Active and/or Pending Licenses by Clicking Toggle Button(s)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Active and Pending filters can be set for:</td>
</tr>
<tr>
<td>● On Premises Liquor</td>
</tr>
<tr>
<td>● On Premises Wine</td>
</tr>
<tr>
<td>● On Premises Beer</td>
</tr>
<tr>
<td>● Off Premises Liquor</td>
</tr>
<tr>
<td>● Off Premises Wine</td>
</tr>
<tr>
<td>● Off Premises Beer</td>
</tr>
<tr>
<td>● Manufacturing</td>
</tr>
<tr>
<td>● Wholesale</td>
</tr>
</tbody>
</table>

**Note:** When viewing the full NYS map, the filter tool will appear not to work. It is working, but nothing is displayed because the map must be zoomed in to see filtered data unless the visibility range was changed in the layer or if already zoomed in.
6.0 Rearrange Dashboard Items and View Legends

Step 1: Click Dashboard Item Name and Drag to Create Tabs

7.0 Use Map Tools

Step 1: Basic Map Navigation

- Use Home button to reset map to full NYS map.
- Use + and - buttons to zoom map in and out.
Step 2: Change Base Map

- Click the Grid icon to select a different base map.

Tip: Using the Open Street map shows buildings and names when zoomed in.
### Step 3: Print Maps

- Click the Print button to print the map.

### Step 4: Choose Export Option

<table>
<thead>
<tr>
<th>Layout:</th>
<th>MAP_ONLY</th>
</tr>
</thead>
<tbody>
<tr>
<td>Format:</td>
<td>PDF, AIX, EPS, GIF, JPG, PNG32, PNG8, SVG, SVGZ</td>
</tr>
</tbody>
</table>
Step 5: Click Advanced to View Additional Print Options
Using the LAMP Application

Step 6: Click Print to Create Print File(s)

Step 7: Click Measurement Tool to Measure Distance Between Locations

Step 7: Select Measurement Option (Press CTRL to enable snapping)

- Measure Area
- Measure Distance
- Measure Location

Step 7A: Measure Area

- Click the area measurement tool and choose the desired measurement type (feet, miles, etc.).
- Click the area on the map to be measured.
Step 7B: Measure Distance

- Click the distance measurement tool and choose the desired measurement type (feet, miles, etc.).
- Click the start and end point for distance to be measured.

Step 7C: Measure Location

- Click the location measurement tool to get the latitude and longitude for a location. The measurement type is degrees.
- Moving the mouse on the map will provide latitude and longitude tracking for mouse movement. Click a point to get latitude and longitude for a particular point.
8.0 Create a Proximity Report

**Step 1: Click Proximity Report Button**

**Step 2: Enter Premises Name or Address in the Search Box, or Use Current Location or Drop a Pin on Map for Basis of Proximity Report**
Step 3: A Proximity Report will be Generated Based on Location Entered

Proximity Report contains:
- 8 closest liquor stores
- Schools within 500 ft
- Places of Worship within 500 ft
- Pending on Premises Liquor Licenses within 750 ft
- Active on Premises Liquor Licenses within 750 ft
**Disclaimer** – This report is for informational purposes only in aid of identifying establishments potentially subject to 500- and 200-foot rules. Distances are approximated using industry standard GIS techniques and do not reflect actual distances between points of entry. The NYS Liquor Authority makes no representation as to the accuracy of the information and disclaims any liability for errors.
