

Effective immediately, all members of the public attending a Full Board meeting will be required to wear a face mask regardless of vaccination status. Individuals who are appearing on a matter being considered by the Full Board may remove their mask while speaking with the Members of the Authority. Seating will be arranged to provide adequate social distancing for those waiting for their matter to be called.

For the Members of the Authority and staff attending the meeting, you will be required to wear a mask while entering/exiting the meeting room. While seated, you will be able to remove your mask. We will be changing the setup of the meeting room to provide additional spacing between the Members/attending staff.
